

STUDY PLAN	With a research-backed biblical model of discipleship, every session is designed to provide a grounded, relational, effective, age-appropriate, and trustworthy group Bible study experience while building a foundation through a biblical lens.	Give adults, students, and kids an in-depth encounter with Scripture by studying book by book.	A chronological study that shows how each passage of Scripture helps to tell the greater gospel narrative of the Bible.	Hyfi is centered around 12 simple, biblical identity truths that teach kids and students who they are in Christ. Each session is age-appropriate and engaging so preschoolers, kids, and students understand who they are in light of who God is.
