

Learn to give God your most valuable asset—time.

It's hard to hear the still small voice of God while you're standing in the whirlwind of life.

When Robby Gallaty started setting aside time with God to do nothing but listen for His voice, amazing things began to happen. This new six-session Bible study will tell a bit of that revival story (1,500 baptized in 15 weeks) while showing you how to put yourself in a position to hear from God, so He can create revival in your own life.
